

ARE YOU EXPERIENCING HOMELESSNESS?

Our Coordinated Entry System (CES) and Access Points connect our neighbors facing housing instability with available resources across Douglas, Sarpy, and Pottawattamie counties. If you are in need of support, our Access Points staff will assess your needs and connect you to the best resources. Our goal is to ensure that you receive consistent and streamlined assistance in a timely manner.

When you connect with our trained Access Point staff they will:

Listen as you share your current situation.

Help you problem solve and find solutions.

Support you in identifying a safe place to sleep tonight.

Work through housing questions with you.

Support you in finding a safe, appropriate, and permanent shelter.

Help connect you to community resources that address your needs.
